

# BULL TOUGH BODIES

**POLYBILT®**

## **POLYBILT® BODIES REDUCE YOUR COSTS**

- Production times increased significantly.
- Custom engineered to your specifications.
- Establishes a fixed cost of manufacturing expenses.
- Reduces inventory kept on hand.
- Streamlines manufacturing processes.
- Integrated tank for larger compartments and more water.
- Lighter body carries more equipment.
- Lower center of gravity for safer driving.
- Limited lifetime warranty.

## **POLYBILT® BODIES ARE BULL TOUGH**

- Reduces shock transfer in collisions.
- Little damage on most minor impacts.
- Polyprene® bodies are easy to clean after exposure to hazardous materials, or when used in decontamination.
- Resistant to damage from high heat exposure.
- Will not rust, corrode, crack, chip or peel.
- Lighter weight than steel or aluminum truck bodies.
