PolyBilt Body Company, LLC
230 NE 25th Avenue, Suite 300 • Ocala, FL 34470
Phone: (352) 629-1414 • Fax: (352) 629-6049

IMPACT BENEFITS

- Eliminates shock transfer through the body in the event of high speed collision, Keeping damage to a minimum.
- Expect little or no damage on most minor impacts.
- Superb impact resistance due to unique combination of strength and flexibility.

HEAT BENEFITS

- Polyprene material is welded at 707° F (375° C) with pressure and at a slow speed of 12" per minute.
- Surface deformation begins at 527° F (275° C).
- Vehicle paint will ignite and tires will melt before body is affected.

CHEMICAL BENEFITS

- 99% of tests show no change in appearance or weight.
- Hundreds of chemical tests have been carried out from sulfuric acid to simple cleaning fluids.
- PolyBilt® bodies are easy to clean after exposure to hazardous materials or when used in decontamination operations.
