

POLYBILT®

TRUCK BODIES

BUILT BULL TOUGH

POLY-PAK SERIES

PolyBilt brings more than 100 years of combined dedicated service to the fire, emergency, and commercial markets.

RECYCLABLE

LIGHTWEIGHT

**LIFE TIME
WARRANTY**

The PolyBilt POLY-PAK body is designed to meet the needs of the Quick Attack and Wildland Markets. The POLY-PAK body comes standard with a curved body, six compartments, including front transverse compartment, with roll-up doors, a 200 gallon water tank and a high-quality paint finish.

Curved Side Bodies

PolyBilt has developed the new polycurved side compartmentation. The radius, which has been achieved and utilized in Europe, is now available to the fire truck market in the states through the curved side PolyBilt body.

With its state-of-art Polyprene material, PolyBilt offers the most impact-resistant, corrosive-free, and durable body. End users will have a body that will have a long-lasting trouble-free service life. PolyBilt bodies have many other features and advantages that add value to the end user.

POLY-PAK products are available in unfinished or finished with paint and roll-up doors.
